Objective

Innovative and solutions – driven providing support with a passion for leveraging technology to solve real – world challenges. Adapt at resolving complex technical issues, support for troubleshooting technical challenges and provide enhanced operational efficiency to deliver impactful solutions.

Experience

Technical Support Engineer | RVR Machinery Manufacturers Private Limited **03/2025 – 04/2025**

- Provided technical support for an **RFID-based tracking system** built with Python and .NET WPF, resolving connectivity and performance issues, achieving 90% system uptime.
- Collaborated with hardware teams to troubleshoot RFID reader integration, optimizing signal detection and ensuring reliable data flow for inventory tracking.
- Created back-end logic to compare real-time RFID data with CSV and database records for PO and box validation, ensuring 90% matching accuracy.

Technical Support Specialist | Bharath Vending Corporation **05/2024 – 02/2025**

- Automated repetitive support tasks using Python scripts, reducing response time for user issues by 25% and improving team efficiency.
- Configured and optimized .NET applications, working collaboratively with cross-functional teams to support essential functionalities and ensure reliable server operations.
- Integrated API 's to streamline data flow between applications and enhancing system interoperability.

Python Intern Trainee | Navodita Infotech **01/2024 – 02/2024**

- Developed a **Real-Time Surveillance System** using Python and facial recognition libraries, enhancing monitoring and security capabilities.
- Designed and implemented automation features to send alert emails with captured images, enabling proactive responses to security breaches.
- Documented project workflows and provided recommendations for future enhancements to streamline security operations.

Education

- Kongunadu College of Engineering and Technology, Trichy **2020 - 2024**
B.E - Computer Science and Engineering, CGPA : 8.31
- Kongunadu Matric Higher Secondary School, Namakkal **2019 - 2020**
HSC, Percentage: 68.50 %
- Kongunadu Matric Higher Secondary School, Namakkal **2017 - 2018**
SSLC, Percentage: 86.00 %

Skills

- **Technical Skills:** C#, Bootstrap 5, Python, Troubleshooting, MySQL, Windows, Linux.
- **Tools & Platforms:** Git, Remote Desktop Tools, AWS (EC2).
- **Soft Skills:** Leadership, Team Collaboration, Problem – Solving, User Support.

Projects

Ident Gate RFID Tracking System

Provided technical support for an RFID-based inventory tracking system using .NET WPF, resolving hardware and software integration issues to ensure 100+ items per minute detection. Providing user support and troubleshooting guides, reduced support volume by 30% through proactive user education.

Inventory Management System

Supported a Django-based inventory management system, troubleshooting authentication and access control issues to ensure seamless user access. Enhanced system transparency by 25 % through real - time monitoring and user support, resolving issues related to admin updates and data tracking.

Billing Vending System

Provided technical support for a .NET - based vending application with UPI and counter payment integration, resolving transaction issues and support integration for the billing module, increased payment processing by 20% and improving user satisfaction.
